press release

## 2013 Inc. 5000 List Honors LAC Group for the First Time

*46% revenue growth between 2009-2012 earns LAC Group spot #4654*

**LOS ANGELES, Sept. 5, 2013** – LAC Group has been named to the 2013 Inc. 5000 list for the first time in the company's history. This annual recognition ranks the nation's fastest-growing, US-based, privately held businesses. Inc. placed LAC Group at #4654 for its 46% revenue growth between 2009-2012.

LAC Group was founded in 1986 by Deborah Schwarz as Library Associates, a niche library staffing business. In the late 90s, she recognized a growing need for information management outsourcing as an opportunity to hire and grow her own specialized staff. Today, the company employs over 250 people and revenues are approaching \$25 million, with clients in government, nonprofits, the Fortune 500, law, academia and more.

With offices throughout the US and UK, LAC Group provides comprehensive staffing and services for Library & Information Service, Knowledge Management, Research, Physical & Digital Asset Management, Records Management and Spend Management. The company is certified by the Women's Business Enterprise National Council (WBENC) as a premier woman-owned firm.

"LAC Group is honored to earn a place on the Inc. 5000 list for the first time," said Deborah Schwarz, founder and CEO. "I credit our growth to a wonderful management team and all our talented information management professionals. We strive every day to bring value to our clients. Now that we have made the Inc. 5000 list, we look forward to earning our place in the Inc. 500!"

### About LAC Group

[LAC Group](http://www.lac-group.com) has been helping its clients enact best practices and solve library and archival challenges since 1986. From information sciences staffing, to metadata creation, to consulting, spend management and physical media storage, LAC has a complete suite of solutions designed to help maximize the utility of real-time and archival information. A certified woman-owned business, LAC continues to be the trusted choice of major studios, broadcasters, government agencies, Fortune 500 companies and universities seeking to
